

MAGNETIC RUBBER PATCH LINERS

Magnetic patch liners are designed for operational emergencies during processing. In case of any blown holes or leakages in the chutes, hoppers, bins, deflector plates etc. This is a safe, efficient & simple method of stopping spillage in fixed plant equipment.

The ceramic magnet is encased in pre-engineered wear-resistant mining rubber & the handle is pre-moulded for ease of installation and removal.

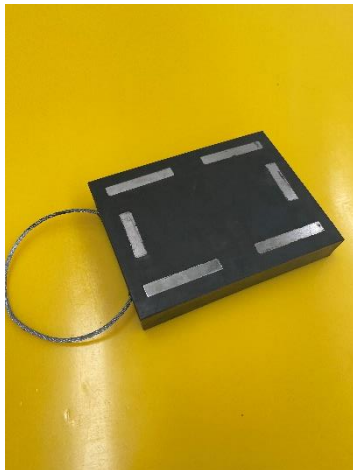

Benefits Include:

1. Easy Application
2. Eliminates downtime
3. No need for permits
4. Tools not required

Available in the below sizes:

38mm x 165 x 165mm

38mm x 318 x 318mm
